Title

A neural network application to subcontractor rating in construction firms **V Albino and A C Garavelli** 9
An analysis method in project management using primal–dual relationships **S Gümüsoglu and H Tütek** 321
An approach to technical risk assessment **J H Klein and R B Cork** 345
An evaluation of the project needs of UK building clients **E A Chinyio, P O Olomolaiye and P Corbett** 385
Back to the basics: biblical wisdom for effective construction project management **S P Low** 209
Business benefits from information systems through an active benefits realisation programme **D Remenyi and M Sherwood-Smith** 81

Change management—a key integrative function of PM in transition economies **V Voropajev** 15
Concurrent engineering: a strategy for procuring construction projects **P E D Love, A Gunasekaran and H Li** 375
ConSERV, a project specific risk management concept **G Conroy and H Soltan** 353
ConSERV, as a continual audit concept to provide traceability and accountability over the project life cycle **G Conroy and H Soltan** 185
Construction process improvement methodology for construction projects **A Serpell and L F Alarcón** 215
Development and project financing of private power projects in developing countries: a case study of India **J P Gupta and A K Sravat** 99
Dismantling the learning curve: the role of disruptions on the planning of development projects **C Eden, T Williams and F Ackermann** 131
Effects of human resource management on project effectiveness and success: toward a new conceptual framework **A Belout** 21
Factors influencing the effectiveness of construction site managers **F H Mustapha and S Naoum** 1
Factors influencing the success of management consulting projects **Y Jang and J Lee** 67
From Plan-Do-Check-Action to PIDCAM: the further evolution of the Deming-wheel **A Platje and S Wadman** 201
How can IS/IT projects be measured for success? **J Wateridge** 59
IT facilitated regulation on London's financial markets—a case study **E D Hepburn** 27
Organisational behaviour during a construction crisis **M Loosemore** 115
Practical proposals for managing uncertainty and risk in project planning **R J Dawson and C W Dawson** 299
Project appraisal—a framework to assess non-financial aspects of projects during the project life cycle **M D S Lopes and R Flavell** 223
Project logistics: integrating the procurement and construction processes **F Caron, G Marchet and A Perego** 311
Project management decision making using cross-impact analysis **L F Alarcón and D B Ashley** 145
Project management development for transitional economies (Russian case study) **V I Voropajev** 283
Project management in the live entertainment industry: what is different? **F Hartman, R Ashrafi and G Jergeas** 269
Project teambuilding—the applicability of Belbin's team-role self-perception inventory **J Sommerville and S Dalziel** 165
Quality, waste and cost considerations in architectural building design management **G Rounce** 123
Relevance of new management concepts to PCM **K Taher and D Sharad** 293
Severity diagnosis of productivity problems—a reliability analysis **P F Kaming, G D Holt, S T Kometa and P O Olomolaiye** 107
Sharing fractions in cost-plus-incentive-fee contracts **K M Al-Subhi Al-Harbi** 73
Strategy implementation and project management **T Grundy** 43
The effectiveness of the Dispute Resolution Advisor system: a critical appraisal **S-O Cheung and Y-W Yeung** 367
The effectiveness of working group risk identification and assessment techniques **R J Chapman** 333
The evaluation of risk management in public sector capital projects **D Baldry** 35
The role of system dynamics in understanding the impact of changes to key personnel on design production within construction projects **R J Chapman** 235
The three ironies of crisis management in construction projects **M Loosemore** 139
Timing of control activities in project planning **M de Falco and R Macchiaroli** 51
Towards a smart project management information system **A Jaafari and K Manivong** 249
Which contractor selection methodology? **G D Holt** 155
WISE (Weighted Impact Structured Evaluation): a new method to analyze the project management context **B Sapio and E Antimi** 173

Book Reviews

Achieving Maximum Value From Information Systems **D Remenyi, M Sherwood-Smith and T White** (J Wateridge) 393
Assessing Business Excellence **L Porter and S Tanner** (Dr F Clark) 65
Civil Engineering Practice **S Scott** (P A Thompson) 393
Contracting for Engineering and Construction Projects **P D V Marsh** (D Wright) 267
Creating Top Flight Teams **Hilarie Owen** (Frances Clark) 267
Earned Value Project Management **Q W Fleming and J M Koppleman** (D H Curling) 65
Effective Project Management Through Applied Cost and Schedule Control **J A Bent and K K Humphreys** (J F Woodward) 129
Managing Innovative Projects **A Webb** (J Light) 329
Microsoft Project Designed for Windows 95 **Microsoft** (S Nugus) 199
Power and Politics in Project Management **Jeffrey K Pinto** (R Graham) 199
Practical Risk Assessment for Project Management **S Grey** (S Ward) 129
Preparing International Proposals **R E Bartlett** (N J Smith) 393
Program Management Demystified **G Reiss** (A van der Merwe) 65
Purchasing and Supply Management: Creating the Vision **V H Pooler and D J Pooler** (J A Rogers) 393
Risk Management in Civil, Mechanical and Structural Engineering **M James** (Z M Nyirenda) 329
The Management of Projects **P W G Morris** (S Wearne) 393
The World's Greatest Project **R W Darnall** (P Austin) 129
Total Manufacturing Solutions **R Basu and J N Wright** (J A Rogers) 329
